CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This invaluable remedy for all diseases of the Pulmonary Lungs, has attained a celebrity from its unrivalled cures, never equalled by any other medicine known. Other preparations have proved themselves worthless as soon as fairly tested, while these pectoral cures appear to grow more efficacious and agreeable as they become more extensively known. After years of trial in every climate, the results have indisputably proved to possess a mastery over this dangerous class of diseases, which has long baffled the attacks of the Physician, Patient, and the public generally.

This statement, not of obscure individuals, and unauthenticated cures, but of those who are known and respected throughout the country.

The widely celebrated Surgeon, Doct. VALENTINE MOTT, of New York City, says:

"I have much pleasure in certifying the value, and efficacy of Ayer's Cherry Pectoral, which I consider a highly useful Pectoral Medicine, in diseases of the throat and lungs."

DR. PERKINS, the venerable President of the Transylvania Medical College, one of the leading Physicians of this country, writes, that "Cherry Pectoral is extensively used in this section, where it has won unsolicited & noble evidence of its happy effects over Coughs, Colds, and Consumption."

The Rev. JNO. D. COCHRANE, Distinguished Agent of the English Church, writes to the Propagator from Montreal, that he has been cured of almost incessable affection, by Cherry Pectoral. His cure, (all thought,) was found to be complete, to baffle the Agents, and is worth the attention of afflicted Catholics.

☞ A certificate from the well known Evangelist at Lisbon, Michigan, one of the largest districts in the United States, is from his own observation:

"Dr. J. C. Ayer—Dear Sir: I have used your Cherry Pectoral, immediately on receipt of your Cherry Pectoral, in my family, and in my travels, and never found anything to equal it for the relief and cure of Coughs, Colds, Influenza, Whooping-Cough, Croup, Bronchitis, and Consumption. I have also used it in my practice, as an expectorant, and find it to be the most effectual remedy in the list of medicines. Its taste is pleasant, and it is perfectly safe. Public speakers and singers will find it the best remedy for clearing the throat, and preserving the voice. Indeed, I consider it the duty of every one who has a cough, or pulmonary complaint, to give this remedy a trial, as I am confident it will do all that is claimed for it."

Prepared by J. C. AYER, Practical Chemist, Lowell, Mass.

Sold by the following agents in Bangor, JOHN INGRAHAM, GEORGE W. EMERSON, ARNOLD and G. W. HOLDEN; Buckspoit, G. H. Hayes & Co., Hampden, Wm. Knox, Ellsworth, H. Grindle, and by the Druggists generally throughout the country.

CONSUMPTION CURED!

CANCHALAGUA;

AND THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION

NO OPIUM.

This syrup consists of Gum, Calamus, or any other vegetable whatever, but is composed entirely of those Herbs, Herbs and Vegetables substances which have a special influence on the Lungs and their connected organs. The Canchalagua is a silky white herb, and gently removes the phlegm and mucous from the Throat and Air Passages, thereby relieving the Cough, by subduing the inflammation and other causes which give rise to it. It also stimulates and invigorates health to the Lungs themselves, thereby expelling from them the matter which is the cause of those impurities and diseased particles which are retained, do so much mischief in the system, and form the foundation for incurable CONSUMPTION. It also gently opens the Liver, and by its mild operation, is safe to operate upon, through the Kidneys, that part of the morbid matter which would otherwise be thrown upon the Lungs, thus relieving them of a part of their work, and rendering the system pure and healthy. When the Lungs are diseased, Tubercles forming, and ulceration and further progress of the disease have commenced, also the Lungs in throwing off the corrupted and extraneous matter from the blood, and by purifying the blood, and restores them again to healthy action. This medicine, in fact, is a purifying curative, which only relies for the thing being, but is a thing, that is a curative, as it strikes at the very root of the disease, and by removing it removes at once all the symptoms that accompany it. This is done by purifying the circulation of the blood, which is equal power, by no other medicine of the same name can be done.

Hundreds of Dollars,

in the shape of bottles of this remedy, has been done in the cases of prolonging many a valuable life.

WARRANTY.

Read the following, and bear in mind that we are willing to warrant this Syrup in every case of Incipient Cold, (when used according to the Directions contained in the pamphlet, for the wrapper of the bottle,) and where the person is not satisfied that it is doing benefit from its first using, to return the bottle within twenty-four hours after purchase, and

THE MONEY

will be returned.

☞ Price 25 cents per bottle—50 cents per bottle, and $1 per large bottle.

☞ Be sure to ask for "Dr. A. Kapp's Syrup of CANCHALAGUA, and take no other, as this is the only one which is put up in this way.

CAUTION.—None genuine, unless there is on the buff wrapper a note of hand, signed with a pen by A. L. ROVILLARD.

For sale, wholesale and retail, by S. L. WOOLLEY & CO., Proprietors, at their "Principal Depot," OTTER HALL, No. 316 Broadway, New York, to whom all orders for the Medicine must be forwarded, and letters relating to agencies should be addressed, post paid.

PATENTS.

American and Foreign Office,

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier,* he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington, and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally explaining their inventions,* and of consulting in person with them *matters, in general, of paramount importance in order to obtain correct specifications and claims.*

The experience, fifteen year's practice, as extensive collection of rare works, decisions, &c., on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense, during the time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors advantages of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, personal acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office. Late Commissioner of Patents.

Real Estate for Sale.

THE undersigned will sell the following described Real Estate, situated at South Levant, in Penobscot County:

A single Saw-Mill, Lath and Stave Mill, nearly new, and in first rate repair.

A small Farm of about 25 acres of first rate land, all under good improvement, upon which there is a good house and barn, and out-buildings, and well situated for a physician, merchant or mechanic.

A farm of about 50 acres of good land, some 130 rods from the mills at South Levant, with a small house on the same, and some improvements; together with a number of smaller lots in the village, well situated for building lots.

Also a good farm of about 60 acres near Weston's Mills in Levant, with good buildings thereon, very pleasantly situated.

A tract of 672 acres of wild land in the town of Hermon, about nine miles from Bangor on the new County road recently located and now being opened from Etna through Carmel and Hermon, to Bangor. This is an excellent tract of land for lumbering.

Also, a new and convenient house and lot in Hanover near the Levant Road on Thomas' Hill, and near the Holland place.

The above property will be sold at good bargains and on favorable terms to purchasers. A portion of the purchase money will be required on the delivery of the deeds, and the remainder will be put on liberal terms with notes secured by mortgage on the premises. A. A. WING.

The Wonder of the Age.

BEWARE OF IMPOSITION!

The Only Genuine and Original

IS THE

NORTH AMERICAN ELECTRIC

WASHING FLUID,

For Washing in either Hard or Soft Water.

THIS is the only genuine article to be found in the world; and possesses double the power of anything ever discovered, for washing clothes at a trifling expense, doing away with washboards at once. In fact it seems to be the long sought philosopher's stone, or universal solvents securing a magical preparation in operation being of the most astonishing character. A common sized washing may be done with one gill of the Fluid, in less than two hours. It softens and removes the dirt, leaving the articles of the most brilliant whiteness, it being as harmless in its operations as pure water; and clothing will wear much longer than when subjected to pieces by the common method of washing.

This Fluid is a powerful agent, to be used in all cases where soap is required particularly for cleansing silk, cleaning windows and paint, scouring floors, in short, it is beyond a precedent, as its use is universal in the washing world.

P S—All Colored Goods are rendered brighter & being washed in this Fluid: all Woolens are less liable to shrink, and thereby rendered much softer than in the old way of washing.

None genuine unless the Labels contain their signature

The above article is warranted by the Manufacturers not to contain soda, lime, camphene, benzine fluid, or acids of any kind, but to be purely an alkaline preparation of the most powerful character, possessing more than double the washing power of anything ever discovered, being perfectly harmless in vapor, without possessing the caustic properties of the miserable articles which flood the market, and in many instances defraud the people to that degree that they are unwilling to try a good article when it really is to be found. The proprietors only ask a fair trial of this article, and are perfectly willing to forfeit any amount for a single failure in any instance where it is used

The Wonder of the Age.

BEWARE OF IMPOSITION!

The Only Genuine and Original

IS THE

NORTH AMERICAN ELECTRIC

WASHING FLUID,

For Washing in either Hard or Soft Water.

THIS is the only genuine article to be found in the world; and possesses double the power of anything ever discovered, for washing clothes at a trifling expense, doing away with washboards at once. In fact it seems to be the long sought philosopher's stone, or universal solvents securing a magical preparation in operation being of the most astonishing character. A common sized washing may be done with one gill of the Fluid, in less than two hours. It softens and removes the dirt, leaving the articles of the most brilliant whiteness, it being as harmless in its operations as pure water; and clothing will wear much longer than when subjected to pieces by the common method of washing.

This Fluid is a powerful agent, to be used in all cases where soap is required particularly for cleansing silk, cleaning windows and paint, scouring floors, in short, it is beyond a precedent, as its use is universal in the washing world.

P S—All Colored Goods are rendered brighter & being washed in this Fluid: all Woolens are less liable to shrink, and thereby rendered much softer than in the old way of washing.

None genuine unless the Labels contain their signature

The above article is warranted by the Manufacturers not to contain soda, lime, camphene, benzine fluid, or acids of any kind, but to be purely an alkaline preparation of the most powerful character, possessing more than double the washing power of anything ever discovered, being perfectly harmless in vapor, without possessing the caustic properties of the miserable articles which flood the market, and in many instances defraud the people to that degree that they are unwilling to try a good article when it really is to be found. The proprietors only ask a fair trial of this article, and are perfectly willing to forfeit any amount for a single failure in any instance where it is used

Correspondence.

To the Editor of the Whig and Courier

In conformity to your pol to request and to the pledge I gave you at Bangor, I l sten to transmit, through the medium of your journal, such intelligence as may be interesting to your readers in relation to the resources and advantages which the Northeast section of Maine presents to that port on of the community who are inclined to establish themselves permanently in this quarter as a farming community

In coming into Aroostook country in its quarter, Bangor may be viewed as the start ng po n After having been absent twenty years and upwards, you may judge of my surprise in witnessing the great change presented to my v ew in every d rection Bangor has been em p ra tically styled the C ty of the East When I saw it last, it was a thriving h l village but now it has become an opulent city It grow rapidly under the excitement of speculation, and many supposed it would as suddenly go down under the reaction which inevitably fol lowed It was at once perceivable that it rode out the storm Conclusive proofs present themselves from every quarter of a healthy growth Your streets are alive with the hum of business Thos beautiful newly painted buildings in every part of the city demonstrate to the reflecting m nd that their occupants are in profitable business A great degree of taste presents itself to the eye of the stranger The gardens, the shrubbery the ornamental trees the capac ous streets l ned on both s des with s lendid buildings and elegant cottages present to the view a most enchanting prospect a prospect, I th nk, superior to any witnessed this s de of Boston or New York

The scenery from Bangor to O dtown by the way of the r ver, is truly romantic No traveler should pass the Corporation without visiting the extensive saw mills erected there Noth ng of the k nd in America can compare with them The amount of lumber sawed from and by this place is almost beyond computation It is a t ll ng sight to the stranger, to behold the raftsmen fearlessly plunge over the falls, when the least error might be fatal to them and the property committed to their care. Custom and habit prepare men to meet danger in every sh ape

The Lower Stillwater, as it is called, is a pretty beautiful place A company has purchased the water power here together with a large tract of land up and down the river. They are about making a general on to erect factories on an extensive scale The hydraulic power at this place is immense One would suppose it sufficient to move all the mach nery in the universe.

Oldtown has made great progress within a few years. It is destined to be a large and flourishing city. This, together with the Upper and Lower Stillwater will become united and in all the elements of greatness will rival Bangor itself This is the head quarters of the Penobscot tribe of Ind ans. Their village on an Island appears to good advantage They still retain to a certain degree the r ancient customs and customs They are the descendants of a noble race But they are fast vanishing away and will soon become extinct.

The line of steamboats from Oldtown to Mattawamkeag presents the traveler with a mode of conveyance both cheap and interesting Whoever wishes for a pleasant excursion in the heat of summer may find this directly to their purpose The gentlemen who command these boats are pleasant and accommodating We passed many beautiful islands, which I was told, belonged to the Indians They have commenced an improvement on many of them which bears evident marks of skill and industry Could the Natives be induced to turn their attention to agriculture, it would be the direct means of procuring a comfortable livelihood and rendering them useful members of society They have, within their reach every advantage that could be desired—the first rate of land easy of access

The aspect of the country from the Poli to the vic nity of Houlton is far from being pleasant The feel ngs turn from it with disgust The mind is occas onally relieved by a few spots that appear like the Oasis in the desert of the desert— few and far bet ween It is almost a continuous swamp inaccessable to any l v ng being except bears and wild cats— Within a few miles of Houlton a new world opens to the v sion of the traveler He comes into a new atmosphere It is the greatest contrast on the face of the globe You pass instantaneously from barren sterility to the richest luxuriance—from inaccessible swamps to verdant fields covered with the green carpet of nature The spirit long depressed becomes buoyant with hope On the right and on the left the farmers are busily employed Their cheerful countenances indicate that they sow and plant in joyful expectation of an abundant harvest I entered the village of Houlton with high expectations The only opportunity I had to see the place was from the piazza of a hotel. The United States buildings or barracks as they are called, made rather an imposing appearance in the distance, but I was told that, like many public characters, they would not bear close inspection It was sorry to be under the necessity of leaving Houlton so soon, as a better acquaintance with the place and the people would have enabled me to give to the public a more flattering description of so famous a village I was told that the removal of the United States troops had a deadly influence on the business of the place. One thing is certain, it is surrounded by a most beautiful country. As you advance towards the Aroostook the land increases in fertility— It is not in the power of language to describe the reality Vast fields of wheat and other grain meet the eye in every direction. Specimens of as good corn as can be raised in any part of America are presented. Potatoes also— Wheat of as good quality as any in the Western States is here produced. The people appear to be abundantly supplied with all the necessaries and even luxuries of life They are mostly hospitable, and hospitably, as far as my knowledge extends is a characteristic virtue The condition of the stranger cannot be otherways than pleasant in such a country and among such a people as this.

I am now writing in a romantic spot. In the Southwest, Mount Katahdin rears his lofty summit in solitary grandeur encircled by a vast wilderness where roam the moose the caribou and the nimble deer Before me is the far renowned Mars Hill which about by land equal to any the eye ever rested upon, composed of undulating ridges and valles sufficiently extensive to comprise whole townships The prospect is quite fine a view was never struck here It is grand the works of art cannot compare with it. It is beautiful, for here the gen tures of nature presents itself in its most enchanting form Which it is considered that these lands are offered to the actual settler for a mere song, it is surprising that there is not a general rush from all parts of the Eastern States to this delightful region

There are some fertile tracts of country in other parts of the Eastern States but this altogether surpasses the whole The bottom lands on the Genesee River are good So is the land on Connecticut River But here is an extent of country over a hundred miles square larger than the whole State of New Hampsh re, the poores of which will compare with the best in that State What a prospect presents itself to the enterprising gr nter It is surprising that so many will settle down on a patch of miserable worn out soil whilst they are invited presented to avail themselves of the superior advantages which this county presents in relation to the health, prosperity and happiness of man

☞ We have recently made a trial of the qualities of Gray's Sash Lock and Fastener introduced here by Mr. B H Rogg and he find at a very reasonable rate. By the use of it any top sash of a window without pulleys or weights may be very easily manag ed by letting it down any desirable distance the same as though furnished with cords and pulleys— It is a very important article for the purposes of ventilation By the use of this lock any cheaply built house may be fully ventilated by dropping the top sash These locks cost but little and answer the purpose most admirably They are not liable to get out of order, and will doubtless come into general use They are just the things for all dwelling and shops, and indeed for all windows not furnished with pulleys Mr Rogg has purchased the right for the sale and use of these locks for the State of Maine with the exception of Kennebec county—and we are sure that wherever he goes with them he will find customers very glad to receive so valuable and so convenient an article for healthfulness and comfort to dwellings

Give me the power to touch like thee
The pleasing chords my lyre,
To pour the breathing thoughts of love
In words of burning fire
To strike the chords that vibrate through
The intellectual soul
And fause the magic lest passions high
Or hold them in control—
Give me but this and be the muse
To gladden my trembling pen,
And I will lay aside my harp
Nor touch its chords again
No more I'll lead at midnight hour
My band to serenade,
No more disturb your peaceful sleep
My dear positive maid
However sweet these notes may seem
The job stee through the wind
I would forego them all to hear
The music of thy mind
The music of the heave ly choir
In harmony of soul
And not the mere melodious sounds—
That through the heavens roll
So blissful it would seem dear maid,
Pours in spontaneous streams
When hearts so good and pure as thine
Sing in poet ic dreams?
Oh, through thy life may a sweet sounds
Of peace and concord blend
And heavenly music soothe thy soul
While earthly strife is still and

BALDNESS—Few people believe that baldness is incurable or even arrestable long before the whole scalp is entirely destitute of hair, there is usually a considerable thinness of the hair, which may be arrested and a new growth produced by the use of Hyperion Fluid. Its values or acknowledged to be unequalled by any other preparation ever before the public. Sold by WM W SWAN Bangor Jy 5 1851 d3t

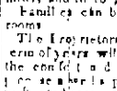
WHITE MOUNTAIN STATION HOUSE,

Peabody River, Gorham, N H



THIS extensive and well known establishment is now open for the reception of visitors and Tourists. The subscriber has taken the above House and has refitted and refurnished the same throughout in a manner which he trusts will render it a pleasant place of resort for those who may favor him with their patronage. The House is situated on the banks of the Peabody River, and is surrounded by the most romantic and picturesque scenery in the White Mountain region. The Peabody River abounds with trout, and the forests in the vicinity with game. Parties wishing to visit the Mountains will find this House a convenient stopping place, as it is but a short distance from the Notch House, and the Glen House is but 12 miles distant. Conveyances will be in readiness at the House to convey passengers to the Notch, Glen, Crawford's, Fabyan's, Jackson, Conway, Bartlett, and all other places of interest in the vicinity. Parties wishing to visit the Mountains can be supplied with horses and guides at reasonable rates. Carriages can be obtained at the Station to convey passengers to Portland, Boston, and all other places. The Proprietor will endeavor to render his guests comfortable, and hopes by strict attention to business to merit a share of public patronage.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S Great Dyspepsia Curer!

THE TRUE

DIGESTIVE FLUID, OR Gastric Juice,

PREPARED from the RENNET of the fourth STOMACH OF THE OX after directions of BARTHOLOMEW the great Physiological Chemist by J. S. HOUGHTON M D Philadelphia Pa

This is a Great Natural Remedy for *Indigestion* and *Dyspepsia* curing after Nature's own Method by Nature's own Agent the Gastric Juice PEPSIN is the chief element or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food* the *Purifying Preserving* and *Stimulating Agent* of the Stomach and Intestines It supplies the Digestive Stomach of the Ox thus forming a DIGESTIVE FLUID precisely like the natural Gastric Juice in the Human System and therefore a *complete* and *perfect substitute* for it—By the aid of this remarkable preparation the process of Digestion and Dyspepsia are removed just as they would be if the Stomach were sound and healthy

It is a wonderful Dyspepsia Curer in cases of Debility Emaciation Decline and Dyspeptic Consumption so much so that to be on the verge of Decline is to be on the verge of Recovery

The Scientific Evidence upon which it is based is the highest degree conclusive and *seems Infallible*

BARTHOLOMEW the celebrated Chemist says An Artificial Digestive Fluid analagous to the Gastric Juice may be prepared from the mucous membrane of the stomach of the Ox in which the active principle of food is mixed and egg will be *softened digested and dissolved* in the same manner and by the *same solvent* as in the human stomach

Half a teaspoon full of the Pepsin Powder and one tea spoonful of water will *digest* two *pounds of Beef* in about one hour out of the stomach

Dr HOUGHTON'S PEPSIN is a Pulverized Pepsin all the Medicinal Properties and Principles of the Gastric Juice and Pepsin of the Stomach and Intestines of the Ox are preserved in this form of Powder with all their solvent and digestive power unimpaired and is the most convenient and delightful form in which the Medicine can be taken

PRIVATE CIRCULARS for the use of Physicians containing full directions for its use in all cases may be obtained of Dr HOUGHTON or his Agents Also a Book containing the whole process of preparation and giving the analytical principles upon which the virtues of this new remedy are based As it is not a *secret remedy* but a Medicine can be procured by Druggists in all parts of the United States and Canada in respectable standing and regular practice

Price in Fluid form ONE DOLLAR per bottle

PEPSIN IN POWDER,

Sent by Mail *free of postage*

For convenience of sending to all parts of the country the DIGESTIVE MATTER OF THE PEPSIN is put up in the form of Powder with directions for their solution in water by the patient These Powders can be sent the same country by the bottles will be sent by mail *free of postage* for ONE DOLLAR sent (post paid) to Dr J S HOUGHTON Philadelphia

BEWARE OF THIS!—Every bottle of the genuine PEPSIN bears the written signature of J S HOUGHTON M D sole proprietor Philadelphia Pa

ELEGANT AND INVALUABLE Articles for the Toilet

Bogle's Hyperion Fluid

For Restoring Preserving and Embellishing the HAIR

The following testimonial from Dr Winslow Lewis one of the most eminent physicians of Boston will show how it operates in such cases

Boston Feb 5 1849

Mr Wm Bogle—Sir The specimen of hair you sent for the purpose was duly received and in reply I would say that I have used your Hyperion Fluid in my family and they give it the decided preference over all the compositions of the kind It not only restores and invigorates the hair but it cures the skin of all humors and will heal pimples or any unnatural eruptions on the face while it softens the skin to the texture of infancy and renders the face as clear as crystal

WINSLOW LEWIS

It is an indispensable article for the Ladies as it will remove the most stubborn head dandruff in a few days and promote a new growth of hair from seed and roots

BOGLE'S HYPERION FLUID,

A COMPOUND FOR SHAVING.

This delightful article is entirely different and superior to all the soaps that have been invented for shaving as it contains no alkali to injure the skin but on the contrary is composed entirely of the choicest vegetable oils which are so combined as to form a rich cream like substance which will not only shave the beard with ease but will soften and preserve the skin rendering it soft smooth and beautiful

Bogle's Hebeiana.

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION

Bogle's Hebeiana or Bloom of Youth is another one of the rich and valuable articles of the toilet now offered to the ladies It is entirely free from all acid or mineral preparations and is composed entirely of the choicest vegetable oils and is perfectly harmless in its nature and will not injure the most delicate skin It is the only article that can be relied on to remove Tan Freckles Pimples Sunburn Redness Roughness &c and render the skin soft smooth and beautiful
